

## About Us

Serrat Trituradoras is a leader run business specialized in the manufacture of mulchers with more than 30 years of experience. During all these years there have been many changes and different forms of work that have made us what we are now.

With effort, dedication, and our wide range of products we have positioned ourselves as leaders in the market of agricultural and forestry mulchers, but we do not want to stop here. We want to be the leading brand in the world. Our team is fully motivated and, above all, aware that we will become the first. All the work we do every day, and our perseverance, will be useful to achieve our goal.

Our engineering department is equipped with the most modern 3D design systems, giving us the possibility to customize the products to the unit according to the needs of the work to be done.

The factory is equipped with the most modern technologies for mechanical manufacturing, in addition to a rigorous quality control system, to reproduce the specifications demanded by the customer and designed it in our engineering department.

We want to satisfy our customers with our wide range of products, putting our engineers at your disposal for all kinds of suggestions, always counting with professional opinion to guarantee maximum performance.
