

About Us

BMC Agrícola S.L. is a company specialized in the manufacture and distribution of fertilizer spreaders and their components since more than 25 years ago. Founded in 1995 by Jesús Bes and his brother Francisco Bes, it has always been a family Company, that offers the best quality and customer service and because of this is currently a national and international reference in the agricultural machinery sector.

Nowadays, BMC has a worldwide distribution network of its products throughout Europe, the United States, Australia and South Africa, basing more than 70% of its activity on exports to these markets. BMC is a specialist in the manufacture of pendulum and twin disc spreaders and offers a solution for every fertilization necessity.

Moreover, BMC offers spare parts for its machines, as well as spare parts adaptable to the most important fertilizing brands in the market, offering an exceptional quality of them and always at a very competitive price.
