

# About Us

Gascón International Agricultural Machinery provides the best solutions for soil treatment since the late 1800s, when the activity began.

We are a manufacturer of agricultural machinery of the most reliable in the sector and always at the forefront, to adapt and adapt our production to the needs that the market is demanding, complying with the regulations in force at all times. In our facilities in Huesca, where the heart and soul of Gascón International Agricultural Machinery are located, spread over more than 10,000m<sup>2</sup>, the manufacturing and design activity of the entire range of manufactured agricultural machinery is concentrated, which includes especially the production of Disc harrows in all its meanings: fast harrows, rear wheel harrows, central wheel harrows, X and V harrows, hydraulic harrows, suspended harrows, vine harrows.

In addition to all the machinery for the deep work: subsoilers in V and straight subsoilers in three rows, de-compactors, cultivators, vibro cultivators, chisel, semichisel, scrapers, rakes, polidocer and leveling blades.

Thanks to obtaining ISO 9001 certification, we can continue to comply with technical, commercial, and social obligations and remain in a competitive position within the national and international market.

Our machines stand out for their durability as well as their low maintenance cost and for the fewest number of spare parts used.

# Products

## **V subsoilers**

**Hydropneumatic V subsoilers**

**Straight subsoilers in 3 rows**

**Decompactors**

**Rear wheel V-disc harrows**

**Center-wheel V-disc harrows**

**Hydraulic folding V-X disc harrows**

**Suspended V-X disc harrows**

**Chisel - Semichisel 2-3 rows**

## **Growers**

**Vibro cultivators**

**Rakes**

**Cutting roller**

**Hydraulic polidocer**

**Refiners**

**Traillas**
