

About Us

Family business founded in 1968 with the main activity of manufacturing and selling agricultural machinery.

Its main activity focuses on the Forging and Forming of hot parts, counting for this with the most appropriate means and complementing it with mechanization, welding, shot blasting, painting and assembly.

It's commitment to customers is to guarantee exclusivity and quality in the manufacture of each piece, as well as to adapt to their needs and collaborate in the development of its components.

They guarantee exclusivity and commitment to their clients, putting all their experience and necessary resources at their disposal.
