

About Us

The beginning of the LARROSA ARNAL, S.L. It is located at the beginning of the 40s, although the ancestors of the founding partners were already dedicated to the manufacture and repair of agricultural implements from previous generations.

Therefore, to find the roots of this company we must go back to the early 1900s, a period in which two different families were dedicating themselves to this activity: the Larrosa family and the Arnal family.

Since its inception, the activity of LARROSA ARNAL, S.L. It focuses mainly on the manufacture of seeders, plows and other implements for the field.

Currently, LARROSA ARNAL, S.L. manufactures different agricultural products, among which a wide variety of Cereal Seeders stands out, designed to achieve a perfect sowing, and to obtain the maximum possible precision and efficiency, even in the worst conditions.

Apart from these seeders, Larrosa Arnal has expanded the range of products it offers, including new product models that, logically, are larger and more sophisticated, according to the evolution of the agricultural market.

In addition, the tools manufactured by LARROSA ARNAL, S.L. They have always stood out for having a different design from those manufactured by other companies. All the tools produced by this company are characterized by their robustness and their unlimited duration over time. The result is tools that, when purchased, cost more money, although they are economically more profitable in the long term, since they do not cause problems and last much longer.
