

About Us

The Sociedad Cooperativa Agrícola de Borja is one of the oil manufacturers that work under the Sierra del Moncayo Oil Denomination of Origin.

The Denomination of Origin is located in the East of Aragón, which includes the regions of Tarazona and Moncayo and Campo de Borja, with 2,500 registered farmers and more than 1,400 hectares of olive groves for a total of 34 municipalities.

The Borja Agricultural Cooperative Society is also one of the founding members of the Campo de Borja PDO wine. The origins date back to 1958, the year in which the winery was purchased from a

private individual and the Cooperativa de Borja and the original Borsao brand were founded. The first bottles were sold in 1981 and the first exports were made in 1991.
