

About Us

The origins of Grupo Tatoma go back to the 19th century. Located in the center of the Huesca town of Monzón, it was especially known for its artistic work on railings and trellises.

Already in the 20th century, the company Melchor Torres S.A. (Metosa) focuses its activity on the production of machines for industrial use, such as hydraulic presses or mechanization equipment, becoming a true reference in the sector.

After a series of structural changes, in 1971 Talleres Torres Martí, better known as Tatoma, was officially created.

Grupo Tatoma has assumed a firm commitment to the generation of value, through the development of new businesses and the growth of existing ones.

This continuous innovation, together with the constant expansion in the international market, constitute its main future bets to continue with a trajectory of sustained growth that has been perpetuated over time, and
