

About Us

Our mission is to grow our company by offering innovative, robust and high-performance products and solutions to meet the needs of all our customers. We support our products by offering unbeatable personalized attention.

Through more than 10 years of history, we have always put great effort into research and development, keeping OSMAQ at the forefront of innovation. Today, OSMAQ has the best engineering software tools in the world, is staffed with highly qualified personnel, has a range of more than 50 different machines, and maintains a reputation for unsurpassed customer service.

In the last two years, OSMAQ has positioned itself as one of the best-selling brands of mulchers and brushcutters both at the agricultural and forestry level.

In addition, the public works section is having a great reception among various construction companies, so everything indicates that it will be a part of the business on the rise in the coming years.

Our complete manufacturing process allows us to offer all tailored hitches for any type of tractor and / or excavator.

We design, innovate and create our own machines to be able to stay at the forefront of crushing and clearing machines.
