

About Us

Maquinaria Agrícola El León was established in 1959 as a company dedicated to the manufacture of machines to facilitate agricultural and livestock work. In 1967, it introduced its reference product in Spain: the loader.

The national success of this machine entails the construction of new facilities in 1977, which will be expanded to 12,000 square meters in 1986. In the 90s, auxiliary workshops were developed in the region that nurtured the company, thus increasing its production capacity. The international expansion of the “Made in Spain” loader is successful in Europe. Its next challenge is to keep making progress in a globalized marketplace.

Its current mission is to provide the user with the most suitable loader for their tractor. To do this, it conducts constant research on new tractor models and designs the most robust and precise adaptations.

In Machinery Agrícola El León also are manufactured: backhoes and buckets sweepers, both for skid steer loaders and for tractors, in addition to roof tiles (polidozer), bulldozer- angledozer-tilldozer for tractors, dozer-bulldozer tractors.

Products

Front loaders for tractor
Agricultural Implements
Retro agricultural excavator
Machinery for Public Works
(sweeper bucket and backhoe for skid steer loader)
Bulldozer-Angledozer-Tilldozer
Tractor Rear Crane
Leveling tiles (polidozer)
