

About Us

INFINITIA INDUSTRIAL CONSULTING

Infinitia is a consulting firm specialized in providing innovative solutions to the industrial sector and providing support in the different phases of the business, from concept to industrialization.

We provide industrial companies with solutions to their problems in production processes, alternatives for creating and improving products, and we help them make better decisions by researching the user, the business, and the product.

Our goal is to help companies in the industrial sector successfully develop their activity, strategically improve their competitiveness and consolidate their position in the market.

A TEAM OF HIGHLY QUALIFIED PROFESSIONALS AT YOUR DISPOSAL

Our objective is to help companies in the industrial sector to successfully develop their activity, strategically improve their competitiveness and consolidate their position in the market.

We are an Aragonese company that has been working for the industrial sector since 2014. It has a team of specialists organized by technical skills, such as polymers, metals, food, chemical analysis or product design.

REAL SOLUTIONS FOR THE PROBLEMS OF REAL BUSINESSES

We work together with your team and integrate into your organization to provide maximum value, wherever it is needed.

Our 360° industrial consulting services will allow you to achieve the planned goals thanks to our methodology SOLVE – IMPROVE – DECIDE – CREATE

SOLVES THROUGH FORENSIC ENGINEERING: We investigate and provide solutions to existing problems in the industrial field, being able to apply from the production line to a product that comes from a market claim.

IMPROVEMENT THROUGH INNOVATION IN MATERIALS: We develop and improve your existing products and processes, or we help you create something completely new, which allows you to be more competitive and differentiate yourself from the competition.

DECIDE THANKS TO STRATEGIC DESIGN: We work with your company to identify what your customers want and better understand the impact of your products and services on the market, helping to better define your roadmap.

CREATE THROUGH PROTOTYPING: We help your company in product development, from the ideation stage or proof of concept, the materialization in a prototype that can be tested and validated, to the manufacture of the product.
